VETERINARIAN APPROVED AMBULANCE  
SERVICE FOR YOUR PET 7 DAYS

## K911 EMERGENCY TRANSPORT SERVICE

K911 animal ambulance is partnered and works in collaboration with all the emergency animal hospitals & clinics on and off the island of Montreal. When your pet is in stabilized and/or critical condition at home or at the vet, trust on K911's certified and veterinarian approved animal ambulance to transport your pet to the nearest emergency animal facility. When your animal is sick, injured, having trouble breathing etc.... and you need to get them, to the nearest clinic or hospital.

Our technicians are trained, professional, reliable and compassionate. We are fully equipped to meet your pet's needs while transporting them to the nearest facility. K911 will also assist you 7 days a week when you find yourself in any given situation with your pet.

## INTENSIVE CARE TRANSPORT

K911's intensive care transport service takes place between veterinarians for pets in stable and or critical condition requiring oxygen.

Our intensive care transport is equipped with oxygen, intensive care units for small animals in need of oxygen, pet oxygen masks, hand stretcher and wheel stretchers and a first aid kit for animals, all veterinarian approved. When it comes to your pet's survival, veterinarians will call upon K911 for their intensive care transports!

## HOME EUTHANASIA SERVICE

By appointment only.  
Possibility for the same day.

After consulting your veterinarian as well as family and friends, the decision you have made to end the suffering, pain and the loss of quality of life is a loving and caring one. Your decision to have the procedure performed at home is the most peaceful, stress-free situation for your dear family member. K911 provides a quality and compassionate in-home euthanasia for your pet in their loving environment where their stress is minimized and comfort is maximized.

## DECEASED PET REMOVAL AND AQUAMATION SERVICE

For many pet owners the loss of a four legged companion takes on the same importance as the loss of a family member. In the event your companion should pass away K911's deceased pet removal service will gently remove your pet regardless of the size, with the upmost dignity and respect they deserve.

We then offer you the aquamation service. K911 provides your companion the highest quality of after life care. If your need calls for a group aquamation or a private aquamation with ashes returned, K911 wants to reassure you during this difficult time that your companion's remains are in good hands.

*In Memory of  
Wayne G. Smith*
